To whom it may concern

Canada Colors and Chemicals has engaged Jack Ostroff of Genus Financial Corporation for several years, to help us during our annual bank renewals. Specifically, we asked for Jack's advice and expertise regarding fee structures, credit facilities and ancillary services proposed by our bank.

Jack's knowledge of the banking structure and processes has proven to be very beneficial to Canada Colors over the years in obtaining the credit facilities and fess structures that it currently enjoys today.

I would not hesitate to recommend Genus Financial Corporation as a treasury consultant.

Yours very truly,

Brian R Job
Vice President, Finance
